BRITISH SCIENCE WEEK

As part of British Science Week, Year Four enjoyed making their own 'Classroom Kites'.

After creating their design, they used magnetic attraction to make them move!

The Infant School held a science morning where children across the school rotated around three activities in mixed age groups to carry out a range of science investigations. These included finding out how colours travel and mix, exploring magnetic materials and investigating the effects of gravity.

It was wonderful to see the scientific collaboration between our oldest and youngest pupils!

Our school follows the Thrive Approach to support the mental health and wellbeing of children.

Thrive activities focus on providing positive experiences and building secure and trusting relationships. This helps young people to:

- Feel good about themselves and know that they matter
- Feel safe and secure in school
- Improve their emotional wellbeing
- Improve their capacity to be creative and curious
- Build their self-esteem and confidence to learn
- Recognise and manage their feelings
- Think before behaving in a certain way...and much more!
